SUMMARY

Passionate Full-Stack MERN developer skilled in building modern web applications, transforming ideas into robust, scalable, and user-centric solutions. Experienced with React, Node.js, Express, MongoDB, and Tailwind CSS. Strong foundation in data structures and algorithms and web development.

PROJECT

Trust Bill

· Developed user-friendly dashboard with real-time bill tracking and automated reminders using React and Tailwind CSS
· Built secure authentication system and backend APIs with Node.js, Express, and MongoDB

Zap Shift

· Implemented drag-and-drop task management interface with Redux state management for improved productivity
· Created role-based task assignment system with progress tracking features

ScholarStream

· Designed role-based dashboards for students, moderators, and administrators with streamlined application workflow
· Integrated secure payment processing with Stripe and authentication with JWT and Firebase
· Enhanced user engagement through intuitive interface and efficient scholarship management system

EDUCATION

Bachelor of Science in Computer Science and Engineering

National University, Bangladesh · Bangladesh · In Progress

SKILLS

Responsive design, REST APIs, Deployment, Authentication

Node.js, Express, MongoDB

Git, Firebase, JWT, Stripe

React, HTML5, CSS3, Tailwind CSS, JavaScript
